

OMNITRONIC CNP-1 WLAN Multi-Room Streaming System

Wireless multi-room streaming adapter

Art. No.: 13072201

GTIN: 4026397562958

The article is no longer in our assortment.

Description:

The CNP-1 transforms your existing stereo system into a wireless music streaming system and brings an exceptional music experience to every room via your home WiFi network.

Stream your favorite music or popular online music services such as Spotify and Deezer via AirPlay from a compatible iPhone, iPad or iPod touch. Easily access your entire music collection in the network from a DLNA player on your Android device. Combine multiple adapters and enjoy listening to music throughout your home. Play the same song simultaneously across different rooms.

The CNP-1 connects to your stereo system via an optical Toslink cable or the analog 3.5 mm audio output. Power supply is via the micro USB port and the power unit provided.

Use our Connect n' Play app to turn your smartphone or tablet into a remote control for your personal music library or for listening to free Internet radio stations with amazing sound quality on your stereo. Download the free app on the App Store or Google Play and start your new listening experience.

Features:

- Stream music wirelessly from your smartphone, tablet, PC and Mac
- Multi-room function for synchronous playback in every room
- Intuitive control via app available for iOS and Android
- WLAN standard IEEE 802.11g/b/n
- Supports high-resolution audio files up to 192 kHz and 24 bit
- Supports Apple AirPlay and DLNA/UPnP
- Streams internet radio services
- USB port for hard disks
