Description:

Mirror cylinder for eye-catching effect

The EUROLITE mirror cylinder with a solid plastic core offers you high stability because of its continuous axis. The mirror cylinder is ideal for hanging on a mirror ball motor.

Thanks to the seamless gluing of the real glass strips, you can achieve an eye-catching disco ball effect by lighting with a spotlight. This effect can be enhanced by using a motor for rotation. The mirror cylinder is supplied with a retaining eyelet and an additional safety eyelet for the safety chain.

Please note: Delivery without motor.
