eurolite®

WR-150 Power inverter 12V/230V

Compact power inverter for on the road

Art. No.: 50603960

GTIN: 4026397206388

Features:

- The power inverter converts a direct current (10- 15 V) into a 230 V alternating current
- Ideal for operating 230 V devices like notebooks, razors, tv-sets, electric tools, refridgerators or ventilation fans
- For cars, mobile homes, camping, garden, boats or 12 V solar systems
- Input via cigarette lighter outlet
- Output via universal socket
- LED-operation indicator
- Optimized safety due to overload, overheat, short circuit and low power protection
- For further information about this product, please refer to the Data Sheet under "Downloads"
