### Description:

Suitable Pinspot for PAR-36 6V/30 W lamp

The Pinspot T-36 is very well suited for illuminating mirror balls, for entrance or counter areas or simply as basic lighting.

Its narrow beam angle makes the projection show a 30-centimetre light circle from a distance of four metres. The use of alternative light sources makes several beam angles possible. Color caps or color foils can easily be placed in front of the T-36.

The body of the pinspot is available in black and optionally in silver and can be easily locked in place using the retaining clip.

### Features:

- Narrow beam angle, at a distance of 4 m there is a projected circle of light with a diameter of 30 cm
  - Color caps or color foils can be attached in front of the lens
  - For illuminating e.g. mirror balls, entrance or counter areas or as basic illumination
  - Low power consumption
  - Diverse beam angles are possible when using alternative illuminants
  - Control via plug and play
  - Very high color rendering index (CRI)
  - With Mounting bracket
  - Available in various colors
- illuminant**
