

EUROLITE LED MSB-100 RGB 24x3W Bar

Rotatable beamer unlike any other!

Art. No.: 50900750

GTIN: 4026397333626

The article is no longer in our assortment.

Description:

I like to move it, move it!

What is the difference between a normal batten light bar and the EUROLITE LED MSB-100? The answer is simple: in contrast to many other light bars, our MSB-100 can pivot. In other words, not static light, but featuring a pivot angle of up to 135 degrees, very dynamic, thereby making the light bar extremely flexible. A fact which immensely broadens the possibilities for use. With 24 powerful 3 W LEDs arranged along nearly a meter in length, the MSB-100 generates a veritably unequalled carpet of light. DMX512 control is possible via any commercial DMX controller. Color change, strobe effect as well as fade-time speeds are easily programmable. Sound control is a given, of course. Treat yourself, and your illumination shows, and let the EUROLITE MSB-100 prove itself.

Features:

- Adjustable rotation angle (up to 135°)
- DMX512 control via any standard DMX controller
- Sound-control via built-in microphone
- Auto mode
- Master/Slave function
- Programmable color-change speed, strobe effect, and fade time
- Invert effect
- Running time display
- Rugged housing and an appealing design
- Power cord with IEC plug included in the delivery
- Advantages of high-power LED technology: extreme light output, long life, low power consumption, defacto maintenance free
