The article is no longer in our assortment.

Description:

This effect laser is a projector combining laser technology with LED technology.

Due to its very wide beam angle and a very bright high power multicolor LED, a wonderful blue sky with hundreds of green and red stars can be created.

The laser and LED lighting effect is equipped with a red and a green laser unit and a high power multicolor 15 W LED. This effect is similar to one when a spotlight is shone on a mirror ball. The multicolor LED produces a cloud effect, which combined with the laser points produce a stunning effect which will cover a very large area.

Features:

- Operation: MCU, DMX512, auto, sound-active
