### Description:

When is going to get dark finally?

When it is getting dark, many public places or historical buildings shine in a very special and charming way. Cutting-edge light technology can be hold responsible for that. With the EUROLITE LED RGB floodlight we do present you one of its powerful representatives. Thanks to its 12 3 Watt high-power LEDs , the illuminates areas are drenched in a deep, strong light and thereby create an unique atmosphere. The colors are static and change automatically. Due to the special LED technology, the diodes shine amazingly bright. Moreover, these outdoor spots are able to strobe and thus have an attractive effect in addition to their nine integrated programs. To not be vulnerable to humidity, DIP switches were set aside. The spots can be linked and completely managed via a remote control. Rely on our LED floodlight an your facades, ceilings or entries will presented in the perfect light. A sight you should not miss out.
