

EUROLITE LED SLS-183 RGB 10mm Floor

Slimline LED spot with 183 x 10 mm LED

Art. No.: 51915310

GTIN: 4026397376975

The article is no longer in our assortment.

Description:

It is the popular KLS which has paved the path for Slim Line Spots. The KLS was the first successful attempt to replace bulky PAR spots by compact and flat ones - on a bar with 4 spots next to another. As is well known, the concept has been a raving success. As a logic consequence we also transformed the form of single spots - the SLS were born.

Obvious advantages of the SLS: they are slim. Compared to common PAR spots they considerably save space. For this reason they are much more flexible and handy. This is also true for installation, stock ground and transport - for most SLS we sell special cases which are smaller and cheaper than those for PAR spots. In the end, the design can save money.

Meanwhile Eurolite has built up a very rich assortment full of different spots. An assortment which is continuously enlarged. Every delivery finally includes a double bracket enabling an additional use as floor spot. Beside the different sizes of the spots the main differences can be seen in the illuminants. A choice of single LEDs, bicolor, tricolor and quadcolor LEDs is offered.

A flat revolution!

Imagine the old CRT-TV's. And now compare them with the new Flat-TV's. They have the same or a better performance in an ultra-flat device. The same story happens now to the classic PAR-64 spot, because there is a keen competitor: the EUROLITE LED SLS-18/10 RGB spot. The new one offers the same number of LEDs but is 66 % flatter. Therefore the spot is much more space-saving than its PAR competitor. The compact spot is easy to assemble and versatile. So if you now ask yourself "what's the downside of it" you will soon realize: There is no downside. To take up again the comparison with the TV: Certainly the Flat-TV can receive the same channels than the old CRT-TV. Also the new EUROLITE LED SLS-18/10 RGB has all the features of the LED PAR-64. But all the advantages are packed in a flatter and more compact device.

Logistic

EAN / GTIN: 4026397376975

Weight: 3,00 kg

Length: 0.34 m

Width: 0.32 m

Height: 0.17 m

Features:

- Flat housing form requires minimal space when rigging
- Second mounting bracket for safe standing installation
- Functions adjustable via DIP switches: Static colors, RGB color blend, internal programs, dimmer, strobe, sound-control, sensitivity
- Operable in stand-alone mode or via DMX
- Master/Slave for parallel operation of several devices
- DMX512 control via regular DMX-controller
- Sound-control via built-in microphone
- Ready for connection with power cord and safety plug
- Preprogrammed in Light´J

Technical specifications:

Power supply:	100-240 V AC, 50/60 Hz
Power consumption:	20,00 W
DMX channels:	5
Preprogrammed in:	Light´J
Dimensions:	Width: 29,8 cm Depth: 9 cm Height: 28,2 cm
Weight:	2,65 kg
DMX channels:	5
DMX connection:	3-pin XLR
Sound-control:	via built-in microphone
LED type:	10 mm
LED number:	183
Beam angle:	30°
Ventilation fan:	No
Dimensions (W x D x H):	298 x 90 x 282 mm
Legal specifications	
Special product:	Not designed for household room illumination
Intended use:	Show effect lighting
