Description:

The LED D-30 Beam Effect by Eurolite comes equipped with six 3-watt LEDs in the colors red, green, blue, amber and pink as well as 36 cold white SMD LEDs creating dynamic strobe and derby effects.
The LED D-30 works with 3 preset programs. In the automatic mode, the preset light programs are played fully automatically without any further adjustments on your part. Alternatively, you can choose the sound-controlled mode via the built-in microphone with adjustable sensitivity. In this mode, the multi-color beams change direction with each bass beat.
You can also operate multiple devices in sync using the master/slave mode.
Apart from the preset programs, the LED D-30 can also be controlled via 4 or 13 DMX channels. For the addressing and settings you can either use the 4-digit LED display and operating buttons on the rear of the device or the supplied IR remote control.
