

EUROLITE LightBeat 1 Bluetooth Speaker with Laser Effect

Portable Bluetooth speaker with laser effect and blue mood lighting

Art. No.: 51918812

GTIN: 4026397626230

The article is no longer in our assortment.

Description:

A portable Bluetooth speaker and a dual light effect combined in one device - this perfectly describes the compact LightBeat 1 by Eurolite. Speakers with small light effects may be nothing special these days but a speaker with both a laser and a blue blurred mini water effect certainly is.

The LightBeat1 offers you a 5-watt loudspeaker and a battery life of 4 hours which makes it the perfect choice for background music or illuminating your house during a garden party. You can also use it to bring a bit of color to your hobby room or your kid's bedroom.

The laser is strong enough to project sharp red and green dots onto the walls and ceiling yet it is not subject to an acceptance test (laser class 2M) and can be used by anyone in all kinds of rooms with no concerns.

Features:

- Portable Bluetooth speaker with 5 watts power
- Built-in laser effect and blue LED illumination get your party started
- Projects thousands of green and red dazzling stars onto walls and ceilings to the beat of the music
- Integrated Bluetooth audio streaming
- Works with iPhone, iPad, iPod touch, Android, Kindle Fire HD, and many more
- AUX input connects any non-Bluetooth device
- Lithium-ion battery with up to 4 hours operating time
- Micro USB charging port
- Easy setting of various laser projection angles
- USB cable and audio cable (3.5 mm jack) included
- Cordless, flexible and versatile
- Battery operation up to 4h depending on program used
