Description:

This elegant houseplant is also known as peace lily, leaf flag, or spathiphyllum. It is used in hotels, residential, office, and commercial premises.

As in its natural model, this artificial plant has several shoots close together. These form the bushy-looking horst of the solitary plant. Dark green, glossy leaves provide a particularly beautiful contrast to the white to cream-colored bracts. Five of these decorative inflorescences protrude high from the dense foliage and have a very natural feel due to their soft-touch quality.

The artificial plant has a total height of about 60 cm and comes in a decorative ceramic planter covered with artificial moss. Thus, cumbersome potting is no longer necessary.
