Description:

The artificial bonsai stone pane from Europalms is always an eye-catcher: whether as a showpiece in the entrance area or in the professional interior design of living and office spaces. In form, color and many details, the artificial plant corresponds to its natural model, but without the high maintenance effort.

Its gnarled trunk with aerial roots and the coarse, leaf-shaped needles are completely made of plastic and also allow it to be placed in protected outdoor areas.

With the designer pot already included in the delivery, the Podocarpus has a total height of approx. 80 cm.

Features:

- Artificial trunk with branches; with aerial roots
- The article is delivered Ready to stand
- Suitable for outdoor use
- With approx. 313 greencolored lifelike leaves
