

EUROPALMS Split philo plant, artificial, 38cm

Split philodendron with leaves made of high-quality PEVA

Art. No.: 82600233

GTIN: 4026397641875

List price: 16.54 €

incl. 19% VAT.

Description:

The luxuriant young plant of Europalms has been modelled very closely on its model from the rainforest of South America. Especially the leaves made of waterproof tarpaulin hardly differ from the leathery, shiny leaves of the original. The Philodendron has a total height of approx. 38cm and is already delivered in a black gardener's pot. This can be used as a standing aid for a planter as well as a decorative pot. It can be used as a table or counter decoration, green splash for your shop window, your exhibition stand or windowsill at home. The plant can also be decorated in sheltered outdoor areas.
