Animated figure with light and sound effect (battery & USB operation)

GTIN: 4026397715316

### Description:

This creepy skeleton of Europalms teaches your visitors the creeps as a standing or hanging figure.

The animated decorative figure is dressed in a floor-length, almost transparent robe in light green and a tattered throw made of coarse, dark green gauze fabric. A scarf made of the same material serves as a head covering and conceals the fastening loop on the skull, which serves as a suspension. Its skeletonized hands are bound with a thick chain. Through a built-in mechanism, the skeleton moves its arms up and down with a loud groan and the head performs circular movements. Additionally, red LEDs flash in the eyes and eerie chain rattling can be heard.

The animation of the decorative figure can be activated via an integrated microphone, the "Step here" switch pad or wired, manual control.

The power supply of the Halloween figure can be via battery operation, USB-A cable for 5 V operation via power bank or power adapter.
