Description:

Witches often make us shiver, because in fairy tales and legends they are usually said to be in league with the devil and to cast evil spells on people. Will the guests of your Halloween or theme party feel the same way?

Our hunchbacked witch is already green with rage and ready to hex your guests. Her gaunt face with long nose and pointed chin is framed by long gray hair. Her devilish grin reveals an almost toothless mouth. She is dressed in a semi-transparent robe and a coarse-meshed coverlet. Her arms can be easily bent into shape and a motorized mechanism makes them move up and down. In addition, the head performs circular movements and a witch's voice sounds. LEDs below the forward tilted head and in the eyes, complete the animation.

The animation of the decorative figure can be activated via an integrated microphone, the "Step here" switch pad or wired, manual control.

The power supply of the Halloween figure can be via battery operation, USB-A cable for 5 V operation via power bank or power adapter.
