Description:

Are you planning a motto- or Halloween party and looking for a matching highlight for the appropriate scary atmosphere? With the metal silhouettes of Europalms you set accents or create a complete horror scenery that will inspire your guests.

Make the 150 cm shadow of a ghost tree the focal point of your ghost decoration. Its bare branches are ideal for integrating spiders, spider webs, bats and other eerie creatures into the overall picture.

The holes in the trunk represent the face (eyes and nose) of the ghost. Determine the creep factor yourself by increasing the creepy effect through indirect lighting or the use of a fog machine.

The two-part silhouette can be screwed together with a few simple steps. The scope of delivery includes 11 cm long earth skewers made of metal, which can be easily attached. Thus nothing stands in the way of outdoor use in your garden or front garden.
