Description:

Hear it right!

A monitor - the word is borrowed from Latin, by the way - somehow describes itself without much explanation. It controls something or to be exact, it easily enables a musician to check what he or she is playing and if it sounds right - so does the M-1020. This rugged monitor has a very high durability and was created for the use on stages. A product, that is absolutely indispensable for any live event.

Logistique

EAN / GTIN: 4026397288674
