Description:

Flashdance!

Lightnings without thunderbolts? Yes, something that happens not only with heat lightnings. Thanks to our new strobe light chain, you are now able to create colorful flashes at any time. Whether in beer gardens, in party rooms, on the balcony or on stages and in clubs, the ten variously colored lamps not only convince with their low power consumption, but also due to their remarkable flash effect. Even when it is used as indirect illumination, our BSLC-10 cuts a fine figure. So when you are looking for something more than just a common light chain, you should not hesitate and take the chance.
