

FUTURELIGHT EVO-3 effect-projector

Fibre optic effect projector

Réf. : 51837556

GTIN: 4026397220582

L'article n'est plus disponible.

Description:

Let the beams of the EVO-3 hit a canvas and it looks as if there was a big spinning washer drum in the centre of the projection. The drum is filled with some colored water that flows from side to side. This impressive effect often changes its colors and the speed of the spinning drum, altogether it is very relaxing. To let the unintrusive EVO-3 come into its own, it should be installed in bars, lounges or chillout-areas.

Caractéristiques:

- An explosion of light and color
- DMX-controlled operation or stand-alone operation with Master/Slave function (1 slave)
