

FUTURELIGHT UV-144 LED spot white

Bright LED UV spot

Réf. : 51841376

GTIN: 4026397260182

L'article n'est plus disponible.

Description:

No flickering!

The LED-technique is the pick of the bunch. Probably this statement is a little bit pompous, but in many fields, this technique brings in its enormous potential at least. A fact that is also true for ultraviolet, or black light. This UV-spot is equipped with 144 LEDs, that produce the popular effect, often seen in clubs or on events, as persuasive as the conventional fluorescent lamps. In addition, the flickering, that fluorescent lamps produce when they are turned on, will not occur as the LEDs burn immediately after the power up.

Caractéristiques:

- Equipped with 144 UV LEDs
- Perfect for halls, discotheques, stages and clubs
- Advantages of LED technology: long life, low power consumption, minimal heat emission, defacto maintenance free with brilliant light radiation
- Feed-through output allows to power another device
- After every 16 UV-144 spots, the fixtures must have a renewed connection with the power mains

Données techniques:

Alimentation électrique: 230 V AC, 50 Hz

Puissance totale de raccordement: 14,00 W

Dimension: Largeur : 13 cm

Logistique

EAN / GTIN: 4026397260182
