Description:

With its clear design, the table plant set from Europalms is the perfect complement to any style of decoration and furnishing. With it, green accents can be set quickly and easily: ideal for shelves, windowsill, desk or as table and counter decoration.

The three small potted plants differ in their color shade and structure. While stalks and leaves are made of high-quality PE, the concrete-look planters were made of recycled cellulose and are therefore particularly sustainable. They are therefore perfect for permanent plant decorations, even if there is little space or no time for elaborate care.

(Please note: due to the processing of cellulose, the pots should be kept away from water and should also not be left in the rain in outdoor areas)

Caractéristiques:

- L'article est livré avec prêt à poser

Données techniques:

Installation/fixation:	Debout de manière autonome recouvert de terre artificielle
Matériau:	Plastique
Couleur:	Vert
