Description:

Animated white owl with light, sound and motion effect

White owls are often associated with witchcraft and magic in mythical stories.

Thus, the snowy owl from Europalms is an ideal addition to your decorations for a theme party or Halloween.

With its eyes wide open and fangs spread, the young snowy owl takes aim at its prey. Its body is covered with white faux fur and the wing covering is made of white fleece, the upper edge of which is finished with a strip of faux fur. The fleece is printed with the typical gray grain of the feathers of juveniles and females. While the young bird's wings move up and down, its eyes flash red and sharp owl hoots are heard. As a suspension serves a black hanging loop, which is attached to the back of the head.

The animation of the hanging figure is activated by integrated microphone or wired manual control. Please ensure sufficient distance to other objects before commissioning, as the wingspan is approx. 75 cm.

Caractéristiques:

- Piano à queue avec effet de mouvement
 - Yeux rouge clignotant
 - Effet sonore
 - Durée d'animation jusqu'à 16 secondes
 - Suspendu
 - Piano à queue malléable
- L'étendue des fournitures**
