Animated standing figure with light, sound and motion effect

Réf. : 83316167

GTIN: 4026397744958

Prix de catalogue: 106.98 €

TVA 19% incl.

Description:

In the circus and at fairs, clowns were once the darlings of the public - cheerful, colorful and entertaining. But when the boundaries between laughter and horror become blurred, figures like "Hatty" emerge - an embodiment of pure unease in a clown's costume. With his sinister charisma, Hatty is guaranteed to give you goosebumps and will be remembered as the macabre highlight of any Halloween scene.

Dressed in a white shirt, a checked tunic and red shoes, he looks almost chic, but first impressions are deceptive. His white-painted face is dominated by a grotesquely exaggerated, blood-red painted mouth, whose grin promises less joy than madness. The equally red-painted nose and black-framed eyes with tears running down his face reinforce the gloomy overall impression. Shoulder-length hair in bright red spills out from under a black floppy hat. His arms can be easily bent into shape and move up and down using a motorized mechanism. The head also performs circular movements, accompanied by a mixture of ghost train sounds, demonic laughter and a menacing clown voice announcing doom. In stark contrast to the spooky appearance, the orange balloon looks like a grotesque detail.

The clown's animation can be activated using the integrated microphone, the "Step here" switch pad or wired control. Power can be supplied via battery operation, USB-A cable for 5 V operation via power bank or mains adapter.

Caractéristiques:

- Tête avec effet de mouvement
- Bras avec effet de mouvement
- Yeux rouge clignotant
- Effet sonore
- Assemblage simple

Logistique

EAN / GTIN: 4026397744958

Poids: 2,10 kg
