Portavaso in acciaio inossidabile, rotondo

Art.n.: 83011382

GTIN: 4026397513004

L'articolo non è più disponibile.

Descrizione :

The stainless steel planter with flanged rim from the "Steeleight Series" impresses with its simple elegance. It is used both for professional interior design such as office buildings, medical practices or hotels, as well as in private living areas. The clever design of the decorative pots from the "Steeleight Series" with a wall thickness of 0.6 - 0.8 mm provide the great advantage that the extended bottom edge makes the roller base supplied starting from 25 cm diameter almost invisible. This steerable base can be used optionally, depending on the intended use.

Logistica
