Prezzo di listino: 117.81 €
incl. 19% IVA

Descrizione :

With "Nova" the Steelecht series continues and the classic design convinces here with its simple elegance in anthracite. The planters are available in different sizes and find their use in the design of professionally used rooms as well as in the private living area.

Brushed stainless steel and a beaded edge guarantee a timeless design that fits seamlessly into almost any interior style. Permanently mounted swivel casters make it easy to move the room greenery, which is a great advantage, especially in the commercial sector. In view of the sophisticated design, the pots from the "Steelecht" series offer the great advantage that the extended base rim makes their castors almost invisible. A safe stand of the cachepots is guaranteed by locking brakes on the swivel castors (quantity: see technical data).

Logistica

EAN / GTIN: 4026397710533
Peso : 4,50 kg
