Inflatable penguin Fred

Art.n.: 83314720

### Descrizione :

Ideal for your winter decoration: Equipped with a warm scarf and cap, the little penguin is perfectly prepared for the cold season. He's just waiting for the start signal to romp around in the snow with his friends.

The inflatable figure of Europalms has an overall size of approx. 120 cm and can't be overlooked even in the twilight, as it is discreetly illuminated from the inside by cold white LEDs.

And this is how simple it is:

For operation, connect the figure permanently to the power supply via its 1.70 long cable. It then inflates to its full size by itself. The IP44 protection class also allows it to be set up in protected outdoor areas.

After the season the figure can be folded up again to save space.
